

ASCE Award Winning Paper

This is to certify that the paper

“Production and Characterization of Aggregate from Non-metallic Automotive Shredder Residues”
by

Vito A. Rossetti, Luca Di Palma, Antonella Ferraro
of Università di Roma, Roma, ITALY

was judged by the Awards Committee to be an outstanding paper presented at the Second International Conference on Sustainable Construction Materials and Technologies held on June 28 – June 30, 2010 in Ancona, ITALY.

This conference is the second international conference in a series that is held every three years by Coventry University and the UWM Center for By-Products Utilization for the purpose of technology transfer and continuing education for engineers and other professionals engaged in or interested in sustainable and alternative materials in various construction applications. 250 professional from about 50 countries attended this international conference.
